This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. REPORT

OF THE

AUDITOR GENERAL ON THE FINANCES.

Auditor General's Department,
Harrisburg, November 30, 1901.

Honorable William A. Stone,
Governor of the Commonwealth of Pennsylvania:

Sir: In compliance with the provisions of section 26, act of May 1, 1876, entitled "An act to carry out the provisions of section 12, article 3, of the Constitution, in relation to the public printing and binding, and the supply of paper thereof," I have the honor to transmit herewith the annual report of this Department on the finances of the Commonwealth, for the fiscal year ending the 30th day of November, A. D. 1901, arranged in the following order, to wit:

I. Statement showing the receipts at the Treasury and the sources from which they were derived.

II. Statement showing the payments at the Treasury, and the purposes for which they were made.

III. Statement showing the monthly receipts at the Treasury, their sources and objects.

IV. Statement showing the monthly payments at the State Treasury, their sources and objects.

V. Statement showing the assessments of State Tax on Personal property in the counties of the Commonwealth.

VI. Statement showing the several Public Loans of the Commonwealth, when authorized, for what purpose, amount of loan, rate of interest, when reimbursable, dates of maturity, amount outstanding and when the interest ceased.

VII. Statement relative to the outstanding certificates issued in payment of interest on the Funded Debt due in 1842, 1843 and 1844.

Digitized by Google

VIII. Statement relative to the outstanding issues and re-issues made by sundry banks in pursuance of the acts of Assembly of May 4, 1841, and April 10, 1849.

IX. Statement relative to the outstanding certificates issued to Domestic Creditors.

X. Statement of the amount of stock and bonds held by the Commonwealth in divers incorporated companies.

XI. Statement showing the funded and unfunded debt of the Commonwealth on the first day of December, 1901.

XII. Statement of miscellaneous statistics in reference to appropriations for the years 1900 and 1901.

XIII. Statement showing receipts from delinquent corporations for the fiscal year ended November 30, 1901.

XIV. Statement showing work of delinquent force for the year ended November 30, 1901.

XV. Statement showing reports received from delinquent corporations for fiscal year ended November 30, 1901.

XVI. Statement showing number of capital stock, loan and gross receipts reports received from corporations for year ended November 30, 1901.

XVII. Statement showing number of reports received from bankers, brokers, notaries, cities and boroughs, banks, building and loan associations for fiscal year ended November 30, 1901.

Attention is called to statement V, pages 502-504, showing the valuation of personal property subject to taxation for State purposes for the years 1900 and 1901: the tax at the rate of four mills for 1901; the amount of increase or decrease; the percentage of increase or decrease for 1901 as compared with 1900; additional personal property secured for the year 1901, together with three-fourths of the net amount returnable to the several counties of the Commonwealth.

It will be observed that thirty-four counties returned an increase in valuation aggregating $75,373,388.77, while thirty-three counties show a decrease of $4,315,669.23, being a net increase of $71,057,-719.54. for the year 1901, as compared with 1900, or an increase in the tax for 1901 of $284,230.87.

In counties where the decrease in the return of personal property aggregated a considerable sum, 307 assessors were interrogated as to the cause for the decrease in their districts, from whom 302 answers were received, five having died or moved out of the State. In many instances satisfactory reasons for the decrease were given, while in others additional personal property was secured through a revised and corrected return.

During the year 1901 agents were sent to the county seats to make investigation as to the method of assessing and collecting the State tax on personal property. Through the reports of these agents it

appears that considerable carelessness and indifference exist on the part of a number of assessors. In many instances it was found that the assessor did not compare the return made by the taxable with the record of judgments and mortgages entered in the Commissioners office as required, vast sums of personal property thus escaping taxation. The county commissioners should exercise the authority vested in them by the acts of 1889 and 1891, adding such judgments and mortgages, whereby a very material increase of the return of such property could be secured.

Attention is also directed to the work of the delinquent clerks, as shown in the statements noted above, pages 516 to 520 inclusive, in which is shown the number of notices sent out, reports asked for, number received, and the amount of delinquent taxes collected. While the amount may not be so large as in former years, it must be taken into consideration that the labor of collecting delinquent taxes increases in difficulty each year, frequently requiring several notifications before responses are received, and that a vast amount of work must be done to have reports made and records completed, while the tax collected may amount to comparatively little. The easiest, naturally, were collected first. It has been my aim to notify all delinquents as they appear upon the records, without regard to the standing of the corporation, or the amount involved, requiring them to make their reports up to date, making the tax settlements against the solvent companies and expunging from the records those found to be defunct. By this method the books will eventually show only live corporations.

As showing the increase in the work of the department, mention is made of the fact that for the year ended November 30, 1901, there were added on the books the names of 1,557 corporations chartered in Pennsylvania, and 670 corporations from other States. During the above period 963 defunct companies were marked off the books, making a net increase of 1,264, new accounts.

The number of letters written in the department for the fiscal year were 8,754, divided as follows:

Corporations,	5,345
County work,	2,034
Official,	646
Escheats,	254
Newspapers,	195
Banks, building and loan associations,	158
Appropriations and warrants,	122

In addition to the correspondence sent out under seal, there have been mailed to the various corporations, banks, building and loan associations, etc., upwards of 20,000 pieces of mail matter containing blanks on which to make reports.

An inspection of this report will demonstrate that it contains considerable valuable and comprehensive information concerning the finances of the Commonwealth, intelligibly classified and compiled through the co-operation of the very efficient force of the department having the matter in charge. Ready knowledge can be obtained under the different headings and classifications, and a more lucid idea conveyed by reference to the admirably arranged tabulation.

Respectfully submitted,

E. B. HARDENBERGH,
Auditor General.
